INTERNATIONAL LABOUR DAY 2025

- International Labour Day, also known as **May Day**, is observed annually on **May 1** to honor the dedication and contributions of workers across the globe.
- It is a **memorial to the labor movement's** struggles and victories.

History:

- The origins of International Labor Day are found in **Chicago**, where on **May 1, 1886**, workers called for a strike for an eight-hour workday.
- The protest, which **turned into** what is now remembered as the **Haymarket Affair**, was a turning point in labor history.
- On May 4, **violence broke** out in Haymarket Square when a bomb was thrown at police officers.
- The **resulting gunfire resulted in several deaths**, including six officers and a number of civilians.
- This turning point **stimulated trade unions and socialist federations** across Europe to **declare May 1 an International Day of Workers' solidarity**, formally approved in 1889 at the Paris meeting.
- While International Labour Day commemorates events in the United States, both the **US and Canada observe Labour Day on the first Monday of September**, not May 1.
- **Over 80 countries**, including **India, Cuba, and China**, mark International Labour Day.
- In India, the **first Labour Day celebration** was held in **Chennai (then Madras) in 1923** by the Labour Kisan Party of Hindustan.
- The day usually involves parades, union gatherings, and celebrations that emphasize employee rights.

NATIONAL HUMAN RIGHTS COMMISSION (NHRC)

- The NHRC is a statutory body, constituted under the **Protection of Human Rights Act, 1993**.

- It was established on **12th October 1993** as an independent institution to protect and promote **human rights**, defined under **Section 2(1)(d)** of Act.

Mandate and Objectives

- The NHRC safeguards rights related to **life, liberty, equality, and human dignity**, guaranteed by the **Constitution of India** and **international human rights treaties**.
- Its primary objectives include:
 - **Strengthening institutional frameworks** to address human rights issues.
 - **Independent investigation** of alleged human rights violations.
 - **Supporting and enhancing** the work of other institutions in promoting human rights.

Composition and Structure

- The NHRC consists of a **Chairperson** and up to **five members**, including:
 - A **retired Chief Justice of India** (as Chairperson).
 - A **retired or sitting Supreme Court judge**.
 - A **retired or sitting Chief Justice of a High Court**.
 - **Three experts** in human rights, with **at least one woman** among them.
- Additionally, **seven ex-officio members** include the Chairpersons of:
 - **National Commissions for SCs, STs, Minorities, Women, Backward Classes, Child Rights**, and the **Chief Commissioner for Persons with Disabilities**.

Appointment and Tenure

- Members are **appointed by the President of India** based on the recommendation of a **six-member committee** led by the **Prime Minister**.
- Tenure: **Three years or until the age of 70**, whichever is earlier. Members are **eligible for reappointment** but **barred from further government employment** post-tenure.

NATIONAL SECURITY ADVISORY BOARD (NSAB) REVAMPED

- **NSAB** is a key body under India's three-tier national security structure.
 - National Security Council (NSC) – Apex body headed by the Prime Minister.
 - Strategic Policy Group (SPG) – Chaired by the National Security Advisor.
 - National Security Advisory Board (NSAB) – Advisory body providing long-term analysis.
- It provides inputs on strategic and security-related matters and plays a crucial role in shaping India's national security policies by bringing together domain experts.
- **Need for NSAB**
 - To provide a broad-based perspective on national security challenges.
 - To incorporate views from outside the government structure for innovative and non-bureaucratic insights.
 - To ensure informed decision-making on complex and evolving threats (e.g., cyber, space, terror, climate).
 - To enhance strategic thinking and foresight on foreign and security matters.
- **Legal Mandate**
 - The NSAB has no statutory or constitutional status.
 - It operates under the framework of the National Security Council Secretariat (NSCS). It is an **advisory and non-binding body** — its recommendations are not enforceable but carry weight.
- **Composition**
 - Headed by a Chairperson (usually a former senior official or expert).
 - Includes 7 members from diverse fields such as diplomacy, military, academia, economics, science & tech.
 - Members are appointed by the Prime Minister's Office (PMO) or on NSA's recommendation. It is non-permanent, and its composition may change based on government needs.

Current Affairs - 01 May 2025

- **Functions and Responsibilities**

- Provides policy perspectives and recommendations to the National Security Council (NSC).
- Offers strategic guidance on evolving threats and national interests.
- Focuses on research, foresight, and independent analysis to support government decision-making.

- **Current Agenda of NSAB**

- Neighbourhood strategy and Western neighbourhood
- Border management
- Maritime security
- Internal security
- Strategic industries and technology
- Strategic communications

NSAB Reconstituted

- The government has reconstituted the **National Security Advisory Board (NSAB)** and appointed **former R&AW chief Alok Joshi** as its new chairman.
 - The seven-member board includes:
 - **Military Veterans:**
 - Air Marshal P.M. Sinha (Former Western Air Commander)
 - Lt Gen A.K. Singh (Former Southern Army Commander)
 - Rear Admiral Monty Khanna
 - **Police Officers:**
 - Rajiv Ranjan Verma (Retired IPS)
 - Manmohan Singh (Retired IPS)
 - **Diplomat:**
 - B. Venkatesh Varma (Retired IFS)
-

WHAT IS NOTICE TO AIR MISSION (NOTAM)?

- Notice to Air Mission, also known as **Notice to Airmen**, is a notice containing information concerning the establishment, condition, or change in any aeronautical facility, service, procedure, or hazard, the timely knowledge of which is essential to personnel concerned with flight operations.
- NOTAMs update pilots about changes in airspace, airports, and equipment that affect aircraft operations.
- It is a bulletin issued by a country's aviation authority.
- NOTAMs are issued by national authorities for a number of reasons, such as:
 - **Hazards** such as air-shows, parachute jumps and glider or micro-light flying;
 - **Flights by important people** such as heads of state;
 - **Closed runways**, taxiways, etc;
 - Unserviceable radio navigational aids;
 - **Military exercises** with resulting airspace restrictions;
 - **Unserviceable lights** on tall obstructions;
 - Temporary erection of obstacles near airfields (e.g. cranes).
- For reasons of conciseness and precision, **NOTAMs are encoded**, although the code is usually sufficiently self-evident to allow the user to identify a hazard.
- NOTAMs are **communicated** by the issuing agency using the fastest available means to all addressees for whom the information is assessed as being of direct operational significance, and who would not otherwise have at least seven days' prior notification.
- NOTAMs are typically accessible through online platforms, electronic flight planning tools, and aviation weather services, allowing pilots to conveniently access up-to-date information and make informed decisions regarding their flight activities.
- **Pilots who do not review NOTAMS before flight put themselves (and others) in danger.**

CABINET COMMITTEE ON POLITICAL AFFAIRS CABINET APPROVES CASTE CENSUS

- **Overview of Population Census**

- The first census in India began in 1872 (non-synchronous), while the first synchronous census was held in 1881 under British rule by W.C. Plowden.
- It is conducted every 10 years by the **Office of the Registrar General** and **Census Commissioner** under the Ministry of Home Affairs.
- Census is a **Union subject** under Entry 69, Union List, Seventh Schedule of the Indian Constitution. It is governed by the Census Act, 1948.

History and Status of Caste Census

- Caste data was collected during British India censuses from 1881 to 1931.
- Post-1951, caste enumeration was discontinued, except for Scheduled Castes (SCs) and Scheduled Tribes (STs).
- In 1961, the Centre recommended that States conduct their own OBC surveys, since central OBC reservations did not exist then.
- Though census is a central subject, the Collection of Statistics Act, 2008 enables states and local bodies to collect data — as done by Karnataka (2015) and Bihar (2023).
- **Socio-Economic and Caste Census (SECC)**
 - The last attempt at caste data collection at a national level took place in 2011 through the SECC, intended to assess the socio-economic condition of households alongside caste information.
 - Only the socio-economic data was published in 2016; the caste data was withheld.
 - It is unclear if the group submitted its report—no report was ever made public.

Key Highlights on Caste Census Decision

- **Digital Mode & Drop-Down Caste Directory**
 - For the first time, the Census will be conducted in digital mode, using a mobile app. A new “Other” column will be included beside the SC/ST column.

CROSS & CLIMB ROHTAK

Institute of Research Based Learning & Competition

Current Affairs - 01 May 2025

- **Major Policy Shift After Decades**
 - The CCPA's approval to include caste data in the upcoming census marks the first comprehensive caste enumeration since 1931 (excluding SC/ST data).
- **Historical Context of Caste Enumeration**
 - Caste data was excluded from post-Independence censuses (1951–2011), except for SC/ST figures.
 - The last full caste census was in 1931, with unpublished data from 1941.
- **Reliance on Estimates So Far**
 - In the absence of official data, estimates like the Mandal Commission's 52% OBC figure have guided policy and electoral decisions.
- **Inconsistent State-Level OBC Lists**
 - Different states have varying OBC lists and sub-categories like Most Backward Classes, complicating efforts to create a standardized national caste database.
- **Renewed Debate on Governance and Representation**
 - The move revives the broader debate on how caste data should inform governance, social justice, and political representation in India.

What Happens Now

- About 30 lakh government officials will need retraining for the new digital format.
- The Census will occur in two phases:
 - **Phase 1:** House listing & housing schedule (31 questions; already notified in 2020).
 - **Phase 2:** Population enumeration (28 questions; tested in 2019, yet to be officially notified).
- **Significance for Delimitation & Women's Reservation**
 - The new Census findings will be used to:
 - Redraw Lok Sabha constituencies (delimitation).
 - Implement 33% women's reservation in Parliament and State Assemblies.

SUPREME COURT DECLARES DIGITAL ACCESS A FUNDAMENTAL RIGHT UNDER ARTICLE 21

In a landmark judgment, the Supreme Court of India has ruled that **digital access is an intrinsic part of** the fundamental right to life and liberty under **Article 21** of the Constitution.

This pronouncement **reinforces the constitutional obligation of the State** to **bridge the digital divide** (marked by lack of infrastructure, skills, accessible content) and **ensure inclusive digital infrastructure**.

Key Highlights of the Verdict:

- **Relevant constitutional provisions invoked:**
 - **Article 21:** Right to life and dignity.
 - **Article 14:** Right to equality.
 - **Article 15:** Prohibition of discrimination.
 - **Article 38 (DPSP):** Obligation of the state to promote welfare and reduce inequalities.
- **Digital access as a constitutional right:**
 - The Court held that the right to digital access is an "**instinctive component**" of the right to life and liberty.
 - The right is now deemed **a constitutional imperative**.
 - **It is essential for access to governance**, education, healthcare, essential services, and economic opportunities in the **digital era**.
 - The principle of **substantive equality** (which ensures policies accommodate varied needs beyond formal equality) mandates that digital transformation must be **inclusive and equitable**.
- **Bridging the digital divide:**
 - **Given India's rapid digital growth** (via Aadhaar, online platforms, net banking), **it is important to consider if technology is available to everyone**, especially the vulnerable and historically excluded.

CROSS & CLIMB ROHTAK

Institute of Research Based Learning & Competition

Current Affairs - 01 May 2025

- The judgment highlights that **rural populations**, senior citizens, economically weaker sections, linguistic minorities, and persons with disabilities face **systemic exclusion** due to lack of digital access.
- The Court asserted that addressing the digital divide is **not just policy discretion**, but a **constitutional responsibility** to **uphold dignity, autonomy, and equal participation in public life**.

Petition Background and Relief Granted:

- **Case of acid attack victims:**
 - The verdict came in response to petitions by two acid attack survivors **suffering from 100% blindness** and facial disfigurement.
 - They were **unable to complete the digital KYC/e-KYC** process due to inability to take a live photograph by blinking, which **hindered access to banking and telecom services**.
- **Directions issued by the court:** RBI and other government bodies were directed to:
 - **Revise KYC norms** for visually- and hearing-impaired users.
 - Develop **alternative** formats like Braille, voice-enabled, and accessible digital interfaces.
 - Provide alternative modes to verify “liveness” during KYC.
 - Continue allowing **paper-based KYC** as an accessible option.

Implications for Governance and Policy:

- **Inclusive digital governance:**
 - The verdict reiterates the need for the State to **proactively design inclusive digital ecosystems**.
 - **Technology must accommodate diverse needs** to prevent exclusion and ensure true inclusion.
